Reserving/Printing Ordinances

The Church of Jesus Christ page of The Family History Guide makes it easier to find names for ordinances. You’ll learn how to do traditional and descendency research, and use the Ordinances Ready tool for finding ordinances to perform.

Once you’ve found names to take to the temple, The Family History Guide walks you through the process of reserving those names and printing ordinance sheets to take to the temple. Imagine the joy of doing temple work for your own ancestors, not only names that the temple provides.
