# On [www.thefhguide.com](http://www.thefhguide.com) – Enabling Your Research

From any of the Partner menus, select Project 4.

OR, click Countries (top menu) & select a region for research.

Countries

## Country Research

In the Countries menu, choose U.S., Canada, or England; or choose a region to select a country. For example, choosing Scandinavia leads to pages for Denmark, Finland, Iceland, Norway, and Sweden.

### Goals and Choices

In each Country page there are Goals, Choices, and Steps to help you make solid progress with research. Typical Goals include: Basic Research, Archives & Libraries, Civil Registration, Churches and Cemeteries, Newspapers, Maps, Get Help, etc.

### QUIKLinks

Many of the Country pages feature inline QUIKLinks, which take you directly to record search pages in FamilySearch, Ancestry, MyHeritage, and Findmypast. There are QUIKLinks for website resources such as GenealogyLinks, Ancestry & FamilySearch Wikis, etc.

### States, Provinces, Counties

The United States and Australia pages have their own state pages: 50 for the U.S. (plus D.C. and Puerto Rico) and 6 for Australia. Additionally, each U.S. state page has QUIKLinks to corresponding county records.

Additionally, the Canada page has 10 province pages, and the England page has 36 county pages.

## Project 6: Help

In Project 6: Help you'll learn to work with others who are researching similar lines, techniques for successful collaboration, and getting help via social media.

Countries	Vault
U.S.
